## The Only Larks in America

Fifteen minutes car drive from the Empress Hotel, Victoria, is the only colony of skylarks on the continent of North America. This sweetest of all songsters, of whom Canadian children read in all anthologies of British poetry, but which they have never seen or heard in actual life in their own country, save in this one section of the Dominion, has been acclimated at Victoria successfully. They are of the English stock, to be found in considerable numbers among the oaks to the north of the city, on the slopes of Mt. Tolmie, at the Colwood Golf course, among the orchards of Gordon Head, in the deep meadows near Elk Lake, and from the flower-scented grounds of Butchart's try, save in this one section of the Dominion, has Gardens. Photographs show the Gardens with insect

## Miners Consider Wage Agreements

Agreements With Local Unions  
Expire on March 31—No  
Local Action Proposed

Delegates from a number of local unions of the Mine Workers Union of Canada met in the city on Saturday to consider the wage agreements between miners and coal operators which expire on March 31. A suggested agreement to become effective April 1 was drafted at the recent convention of the union held in Calgary and this was presented by a special committee for ratification.

Among those in attendance at the meeting on Saturday were: Frank Wheatley, president of the organization; Major Hyslop, secretary; D. Gillespie, Coleman; J. Sloan, Lethbridge; J. Procks, Bellevue; J. Ponterola, Callhurst; M. Carmichael, Canmore; C. Johnson, Nordegg; H. Chmara, Mile 82; A. Lievears, Wayne; S. Vining, Lussier; T. France, Nordegg and B. Saunders, Federal.—The Calgary Herald.

## Local News

Chas. Nicholas was a business visitor to Lethbridge this week.

Wm. Bell of the Grand Union hotel was a visitor to Calgary during the week.

Now is the time to clean away the ash piles and help to make a clean town.

Last Wednesday evening Mrs. W. H. Garner entertained in honor of Mrs. McArthur, who being played, the prizes being won by Mrs. Fairfull and Mrs. McArthur.

Mrs. G. R. Powell entertained at bridge on Tuesday afternoon in honor of Mrs. J. R. Haining, of Turner Valley, two tables being in play, and the honors going to Mrs. Flynn, Mrs. Pattinson and consolation Mrs. Dunlop.

Mrs. Fred Stokes and daughter and son are spending a few weeks in Coleman prior to sailing for a visit to England for the summer months. Mr. Stokes recently was appointed engineer at the International power plant, and on their return from England they will take up residence here.

Mr. Melville Anderson, of Anderson & McLean, sight specialists, of Calgary, announces next visit to G. R. Powell's, Coleman, Tuesday, April 1st. 20 years experience in regular visits assures you of satisfaction in all optical work.

Mr. and Mrs. J. McArthur have left the old fortress, "Edinburgh Castle," and will live in Everett, Wash. Last week they were the recipients of presentations from the Eastern Star, the Knights of Pythias and the town band. They lived here for several years and leave with the good wishes of many friends.

An interesting feature story was published in last Saturday's Lethbridge Herald on Harold C. F. Ritchie, wholesale distributor in a grand scale, who last year purchased the J. C. Kuo Co. of England. G. R. Powell of Coleman knew him well when he lived at Little Current, Manitoulin Island, in the days when his chief delight was to guide holiday visitors to the choice fishing spots. Mrs. Liza Hall, formerly of Coleman, now living in Calgary, is a cousin of Mr. Ritchie.

## Coleman Delegates at Pythian Convention

The next annual convention of the Knights of Pythias will be held in Calgary, it was decided at the 20th annual convention which was held last week at Lethbridge. A E. Hartley of Medicine Hat was elected grand chancellor for the ensuing year. J. T. Griffiths, secretary of Coleman Lodge, was appointed as grand outer guard.

The sixth annual session of the Pythian Sisters was also held at the same time in Lethbridge. Mrs. Gillespie of Coleman representing the local lodge, Mrs. Cos. Glen, denning, grand chief, presided at the convention. The grand chief elected for the ensuing year is Seeta Duncan, of Drumheller.

A grand banquet was tendered the visiting delegates by Lethbridge Lodges in the Marquis hotel, at which over 200 sat down. A large number attended the dance afterwards, and the convention proved most enjoyable throughout, and the delegates enjoyed their stay in Lethbridge.

## Radio Licenses

People owning radio sets are advised that all licenses expire on March 31. It is imperative that renewal licenses be applied for in good time, as there is a maximum penalty of \$50 for being in possession of a set without a license.

The R. C. M. P. office at Blairmore issues these licenses, by authority of the Department of Marine and Fisheries.

The cost of the license is \$1.00, and may be had on personal application or by sending a postal note or money order to the R. C. M. P. office, Blairmore.

M. Korman's house in East Coleman was destroyed by fire between 8 and 9 a.m. this morning.

## March Running True to Form

The temperature made a quick change yesterday morning. At 7 a.m. when Harry Clark arrived at the International mine office, the thermometer showed 24 above zero, and by 9 a.m. it had dropped to six above, while the wind had changed from west to east, bringing a blizzard, by noon the thermometer registered zero, and it continued cold during the remainder of the day. Last night was 11 below zero.

## Communism in Canada

Canada is no place for Soviet agitators who place Communism above all things which the civilized world has learned to venerate. The minds of children should not be allowed to be polluted by such literature. Short shift should be given those who seek to use the immature minds of children for the purpose of sowing the seed of a destructive creed, destructive spiritually, mentally and materially.—Lethbridge Herald.

## Cunard to Build Rival of Bremen

London—Efforts by the Cunard Company to regain the blue ribbon for the Atlantic from the German liner Bremen are foreshadowed in news made public here March 13 that the English company is to build a new fast ocean greyhound to supplant the veteran Mauretania.

At present no details are given regarding the speed and tonnage of the new vessel but specifications have already been invited. It is expected that the ship will have watertube boilers and turbines.

Dave Gillespie was performing the Good Samaritan act this week in canvassing the town for donations to provide Chiropactic treatment for "Buck" Grant. The Miners Union headed the list with \$20, and citizens contributed amounts from \$5.00 to \$50, making a total of over \$100.

## Heard on the Corner

A discussion on various types of people, and J. D. remarking that they do not bury all the dead here, as there appears to be quite a few walking around.

Men speculating if twenty years from now there will still remain the names of men long since dead on store buildings on Main street.

## ST. ALBAN'S CHURCH, COLEMAN

Sunday, March 23, Evening at 7 p.m., by Rev. W. Barlow

Friday, Choir practice at 7 p.m. At the recent annual meeting of the J. W. A. of Calgary Diocese one of the Coleman members was awarded the highest marks in a competition, being awarded 89 out of a possible 100, and Coleman was specially praised for its Dorcas work.

The Rev. A. D. Currie is making progress from his illness.

Allan Munro, of the Children's Dept., provincial government, was a visitor in town yesterday.

## COMING EVENTS

(under this heading 12c a line)

On Saturday, March 29, the Ladies Guild of St. Alban's W.A. will hold a sale of work, penny sale and a prize drawing in the K. P. hall. Tea will be served from 3 to 6 p.m., the admission being 25c.

There will be a sale of work and home cooking on April 19 by the Girl's Band of Love of the Salvation Army. Please reserve this date.

Entries for the musical festival at Blairmore commencing April 21, must be in the secretary's hands by March 24.—F. J. Smith, Hillcrest.

The West Canadian Collieries Band will give a sacred musical programme in the opera house on Sunday, March 30, at 8.30 p.m. Songs of Sunday, "The Martyrs", and "The Hallelujah Chorus", are among the numbers that will be rendered by the band besides vocal and instrumental solos.

## John Boles In "Desert Song"

Sings Many Solos; Exquisite Music by Sigmund Romberg. Opens Monday

John Boles, who portrays the masterful, glorious singing role of "The Red Shadow," has won the highest critical praise for his work. One of the most affecting songs in "The Desert Song," the Vitaphone operetta which opens at the Palace on Monday for three days, is the love-making between the mysterious Red Shadow and his band of Riff followers, by whom he had been condemned to banishment in the desert, with neither food nor water, and no arms except his own broken sword. There is a bond of affection between the leader and his men, but he is refused to meet the general of the French post in single combat, knowing him to be his father, and the law of the tribe is inexorable.

The story of "The Desert Song" is full of heart throbs, many of which are based on the love of the Red Shadow for Margot, the French girl who is strangely attracted to the marked bandit chieftain, but has no eyes for his other self, Pierre Birnbaum, the general's son.

In no other picture has there been so convincing a demonstration of the possibilities of Vitaphone as in "The Desert Song," which will go down in history as the first musical screen play to be transferred in its entirety to the motion picture screen.

The large chorus of over 100, is composed of singers who were soloists who have never before appeared in chorus, or who had graduated from that estate into principal parts and so great are the number of these that the ensemble of "The Desert Song" might almost be described as a chorus of principals. Sigmund Romberg's luring music is played by Vitaphone Symphony orchestra.

The number of births in Coleman in 1929 registered with A. M. Morrison, registrar of vital statistics, was 58, and in 1928 there were 72.

## SCOUT NEWS

## Come On Out!

WASHINGTON—To the true blue colors of the Boy Scouts of America, President Hoover calls for 10,000,000 youthful volunteers.

The Chief Executive, a long devoted friend and comrade of youth and the Boy Scout organization, issued his summons at a dinner here March 10, attended by more than 430 of the Nation's leading business and professional men who gathered to confer on the launching of a five-year expansion program of the Scouts.

Speaking in his happiest vein, the President, disclosing his deep love of and delight in youth, urged his audience to make possible the organization and development of the leaders necessary for the greatly expanded Scout movement visualized.

For himself he pledged his wholehearted support and interest in words that bespoke the depth of his ever fresh enthusiasm for youth, his energy, his problems, his joys, his fellowship and sportsmanship. "Together with his sister," the President said, the boy is the most precious possession of the American home.

## THE SALVATION ARMY

Captain Clifford Fowler and Lieut. Jacob Zoutendyk.

Sunday Services, 11 a.m. Holy Communion; 2.30 p.m. Sunday School; 7 p.m. Salvation meeting.

Last week Mrs. Steve Machin tuned in on the radio messages passing between Commander Byrd at Dunedin, N.Z., and New York. It was 5.30 a.m. local time when Commander Byrd was heard, his speech being broadcasted from Dunedin to Schenectady, N.Y., with a country-wide hook up over the N.B.C. network.

### Reform Of The Calendar

The subject of reform of our present calendar is receiving increasing attention throughout the world. What was once regarded as more or less of a radical idea is now seriously regarded by hard-headed business men and Governments as a meritorious suggestion. As a result, the proposal has reached the stage where the League of Nations has set up a commission to deal with the question, and Governments the world over have appointed influential committees to study the merits of the various schemes proposed. So convinced are many large business corporations of the advantages of a thirteen-month calendar that they have adopted it, temporarily at least, as the basis for their internal accounting and statistical comparisons.

Hundreds of different plans were submitted to the League of Nations commission. These have been narrowed down to two or three for submission to the Governments of the world for consideration. The plan which seems to find the larger measure of approval, and has already been endorsed by the United Nations national committee, is the work of a Canadian, Mr. E. Cotsworth, of Vancouver. Briefly, the plan is to divide the year into thirteen months of twenty-eight days each; to have each week, each month, and each year begin on the same day; to have a new year, "Sol," come between June and July. This provides for 364 days, and it is proposed that the extra day be taken care of by including a holiday, to be known as "Year Day," between Saturday, December 28, and Sunday, January 1.

In the proposed calendar, each of the thirteen months would be uniform as follows:

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28

Among the advantages claimed for this simplified calendar are, from a business point of view, that it will allow of definite and accurate comparisons between one year and another, and between the months, weeks, and even days of one year and those of another, that it will simplify the computation of interest, each month being the same length, and it will also simplify other business calculations, payrolls, for example.

All holidays will fall on the same day each year. So will a person's birthday, or wedding anniversary. Christmas would always be on a Wednesday. "Year Day" would be a holiday between the old year and the new, and the new year would always begin, appropriately, we feel, on a Sunday.

Opposition to the proposed change comes chiefly from the churches and religious organizations, notwithstanding the historical fact that our present calendar was a change from previous calendars sanctioned by the head of the religious organization. The churches do not wish to have their feast-days, fast-days, and holy-days disturbed, even though now they are irregular and as varying as other days in our present calendar.

Our present calendar is the outgrowth of centuries of disputes and jealousies. It is as illogical as were these old differences. For example, the only reason February has only 28 days, as compared with 30 and 31 in the other months, is the jealousy of one Roman Emperor of another because the month named after the former had one day less than the month named after the latter, so he took a day from February and added it to month named after himself, thus giving it the same number of days as the month named after his rival.

The Bible records that the Creator made the world in six days and rested on the seventh, or Sabbath day, and in the Ten Commandments we're enjoined to "Remember the Sabbath day to keep it holy." In later centuries, a church ordered that the first day of the week and not the seventh should be observed as the holy day, hence our present Sunday. But Jews and Seventh Day Adventists adhere to the seventh day. Christmas day was a matter of bitter dispute among the churches for nearly 2,000 years before December 25 was finally accepted. But it is not so recognized in some countries even yet. The new year begins at varying times in Russia and China, as compared with other countries.

The fact is, and in consideration of the present subject of reform it should not be overlooked, that the calendar is wholly man-made. There is nothing sacred about it, just a convenience in the regulation of our everyday affairs. That is, should add to its convenience if it were more uniform and logical goes without saying.

#### Losing The Art

According to Jim Curran, of the Soo Star, who has been having a winter vacation in Michigan, "very few Indians can swim and are slow about taking clothes away from shore." This must come as a surprising news to many, and one wonders if it is true only of present day Indians, but not of their forefathers, who must have had "many rivers to cross" and scarcely any bridges.

The Simpson tunnel through the Alps is twelve and one-half miles long.

Rats are not native to America, having come to this continent on ships.

## Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may have a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years, correcting excess acids. Each bottle contains full directions—any druggist.

### Wage War Against Cancer

Province of Saskatchewan Taking the Lead in Combatting Scourge  
With Saskatchewan about to take the lead in all Canada in the fight being waged against cancer, setting up two main clinics, one in Regina and one in Saskatoon, and a research fund of the value of \$120,000, just a few statistics on the disease may be of interest.

In Saskatchewan cancer ranks fourth in the list of diseases that cause the most deaths. Tuberculosis, once far up in the list, is now far down and Saskatchewan is credited with having the lowest mortality rate from tuberculosis of any part of America.

The leader as the cause of death is heart disease. Still births came second. Pneumonia ranks third and cancer fourth. The fifth on the list is accidents at birth and accidental deaths of all kinds are placed sixth.

### SUFFERED FOR YEARS FROM RHEUMATISM

Regained Health Through the Use Of Dr. Williams' Pink Pills

Rheumatism is a disorder of the blood caused by too much uric acid in the blood—and must be treated through the blood. It attacks its victims when vitality is low, thus setting up inflammation in the muscles and joints. Wet and cold weather may start the tortures of rheumatism but it is not the cause. The cause is the blood—bad blood. Enrich and purify the blood and rheumatism will disappear. If you are a sufferer from this painful malady begin the use of Dr. Williams' Pink Pills and see how soon the pain and stiffness will disappear. These pills enrich and purify the blood and good blood means good health.

Mrs. John C. McPherson, St. Mary's, Ont., was a victim of rheumatism for years and writes as follows of her illness and recovery. She says: "I suffered from rheumatism for nearly sixteen years and for eleven years I was unable to walk. I tried a number of medicines as well as medical and chiropractic treatment without any permanent benefit. I was then so bad that I was at a loss to know what to try next. I noticed in different papers how strongly Dr. Williams' Pink Pills were recommended for cases like mine and I decided to try them. After taking several boxes I noticed that my appetite was improving. The pains became severe and my color improved. I continued their use and now I am able to do light housework. I wish I could impress on all rheumatic sufferers just how these wonderful pills have done for me." Dr. Williams' Pink Pills are one thing but they do it well—they enrich and purify the blood. This rich red blood banishes such troubles as rheumatism, sciatica, neuralgia and neuritis and leaves the former sufferer robust and healthy. Well able to take his or her place in doing the duties expected of them. The pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Overseas Trade

Western Canada Has Had Large Share In Developing Trade With Old Country

Trade between Canada and the Port of Liverpool increased over 400,000 tons during 1929, said C. M. LeConteur, Canadian representative at that port, while on a visit to the west. Western Canada has had her share in this increase, he said. Large quantities of grain from the prairies are shipped through Winnipeg to Liverpool, in the ordinary course, and machinery and dry goods are returned.

Cause Of Asthma. No one can say with certainty exactly what causes the establishment of asthmatic conditions. Dust from the street, from flowers, from grain, and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

### A Doubtful Apology

A youth from the city was walking across a country field when an eagle plucked him and he tossed him over the fence.

Painfully picking himself up, the young man looked through the fence and saw the eagle perched on the ground. He shook his fist at the angry animal and said:

"If it were not for your bowing and scraping and apologies, you beast, I should think you'd pitched me over the fence on purpose!"

The Chinese peanut crop, which now exceeds the American production, had its beginning in four quarts of American peanuts taken to China about forty years ago by a missionary.

Use Minard's in the Stable.

W. N. U. 1829

### WRIGLEY'S

When you need new energy, when you are hot and mouth is dry—pep up with Wrigley's—it moistens mouth and throat.

The increased flow of saliva feeds new strength to the blood, you do more—you feel better.

### Britain Serves Its Public

Londone's Experience Proves People Have No Cause For Complaint

The British Postoffice Department is one of the biggest businesses in the world. In addition to the gigantic postal work, it handles savings bank deposits, and has a complete monopoly of all the internal telephone and telegraph services in the country. Many billions of dollars' worth of transactions pass through its hands every year, and one would hardly expect that such an undertaking would care twopenny about a mere twopenny.

But a Londoner had an experience the other day which commands the respect of the Britisher who is apt to grouse about the public services.

A man called up a friend from a public telephone booth, and after putting his two pennies in the box was about to hang up when he noticed that he had a coin in his hand. He went into a store near by and sought the use of the telephone. He professed his call by telling the operator what had occurred at the booth. The girl apologized profusely and said she would take the matter up.

A little later the occupier of the store received a ring from the operator asking if he knew the name and address of the party who had spoken to her as she had forgotten to call. The occupier did know, and furnished the information.

Two or three days later the telephone customer received a letter from the head office saying "Enclosed please find stamps value 2d. as refundment of the amount expended by you in call money. It is regrettable that an ineffective call to—on the... Any inconvenience occasioned you in the matter is regretted."

Whatever faults the telephone branch of the British Postoffice Department may have it is scrupulously honest and courteous.

For Both House and Stable.—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

### Germany's Tribute To Late Foreign Minister

Name Of Historic Street Is Changed To Stresemann

The name of a great German military victory has been erased from the street map of Berlin to make room for a tribute to the memory of a peacemaker of modern Germany—the late Foreign Minister, Dr. Gustav Stresemann.

Königsgratzer Street, which for more than half a century has reminded Germans of the defeat of Austria in the battle of Königsgratz, has been changed by official decree to Stresemann Street.

The thoroughfare is familiar to many travellers as the street on which two of Berlin's principal railway stations face.

Peruvian Balm—the delight of dainty femininity. Imparts a fragrant charm to the complexion. Tones up the skin and makes it velvety soft in texture, and cooling, refreshing, it is delightful to use. Never leaves a vestige of stickiness. Invaluable for hands, face, and as a hair restorer. Wonderfully soothing and protective. Especially recommended in cases of roughness or chafing caused by weather conditions.

### Proves His Claim

A senior in the law school of the State University, at Norman, Oklahoma, claims to have eaten two cows. His claim is based on the fact that during his time in the university, he has eaten four hamburgers a day, or a total of 1,620 pounds of cows—two cows, he says.

Minards—50 Year Record of Success.

### Activity In Land Sales

Land and Townsite Department Of The C.N.R. Reports Satisfactory Results

Satisfactory reports concerning last year's business were submitted at the annual meeting of field men and other representatives of the Land and Townsite Department of the Canadian National Railways, and which was presided over by Mr. E. A. Field, Land Commissioner. Representatives were present from the three prairie provinces.

Land sales last year, in spite of prevailing conditions, were reported to be fairly good in comparison with previous years and due payments, both capital and interest, were well met on the whole, so that there was reason to be well pleased with the general situation.

The majority of those who bought land were resident farmers who were extending their operations or making provision for their sons.

Last year ten new townsites were opened, principally in Central Saskatchewan, and thirty-one others would be opened and will be opened during the current year. The building of new lines has attracted numerous farm settlers and a large amount of new land is being brought under cultivation.

### FAINT, DIZZY SPELLS

Had To Sleep Propped Up In Bed

Mrs. Norman Bishop, Salisbury, N.B., writes:—"I was troubled with faint and dizzy spells and when I would lie down I would not be able to sleep. I was so bad I had to sleep propped up in bed. My heart was so weak that I had heart nerves, and that I needed a good heart tonic."

"I was advised to take

and I had not taken one box when I could lie down and sleep like a child." Price, 50c, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### Has No Fuel Problem

Alberta Alone Has Coal To Meet Canada's Needs For Centuries

Canada will not have a fuel problem for many generations. Under the broad acres of Alberta alone, there is a coal reserve which is adequate to meet the needs of the Dominion for hundreds of years, for according to reliable estimates there is a store of no less than 1,059,000,000,000 tons. The quantity makes the imagination reel. Last year the Province's 247 mines produced 7,334,179 tons of coal, 2,432,729 tons of which were shipped to other provinces in Canada.

If the Naval Conference can disarm navigation the rest will be easy. The value of perfect diamonds is exceeded by flawless emeralds of equal size and weight.

### DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief. The cause of the headache still remains within. The safe and harmless way. First correct the cause, sweeten the bow and acid stomach, relieve the intensity of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red pkgs.

### Aerial Weddings Are Illegal In France

Government Points Out That Law Is Very Definite

Marriages in the air have been declared illegal, by the French Government, which points out that the law is definite in that respect, and that the only legal marriages are civil ceremonies which must be performed by the mayor in the town hall.

Despite that, the famous airport of Paris, Le Bourget, has become a point of honeymoon pilgrimages. The restaurant at the airport, which overlooks the flying field where 40 commercial airplanes land or take off, during the day, has been booked every noon for months, by bride parties.

### Plan Erection Of Monument

Canada Will Mark Historic Spot In Manitoba

The Historic Sites Monuments Board of Canada, are erect a monument to mark the spot in Manitoba at which was originated the present system of land tenure for Manitoba, Saskatchewan, Alberta and the Northwest Territories.

This was at a point 12 miles west of Winnipeg, marking the intersection of the Portage highway with the principal meridian. It was on July 10, 1871, that a surveyor's post was driven into the ground at this place. The monument will be placed there next summer and its unveiling may be part of the ceremony marking the diamond jubilee of Manitoba.

India has twelve rivers held sacred by the natives.

Yesterday was a fact, today is a reality, but tomorrow is fictitious.

Pain stops instantly!

### Here It Is

and beats them all for treating nose, throat, cough, cold, bronchitis, croup, whooping cough, catarrh and tonsillitis. Price, 50c, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

KITCHENER TOWNSHIP CO., Kitchener, Ont.

### Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh, delicious! Para-Sani keeps them from staling.

Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

## LABOR PARTY IS SUSTAINED ON CENSURE VOTE

London, England.—The MacDonald Labor Government was sustained in the House of Commons in face of a vote of censure on the Government's tariff policy moved by the Rt. Hon. Stanley Baldwin, Conservative and opposition leader. The Government has given a new lease of office, but the feeling is still general that the reverse on the Coal Mines Bill was the handwriting on the wall. The vote was 308 to 235.

The Liberals had announced they would support the government; Sir Herbert Samuel complimented Mr. Snowden, the chancellor of the exchequer, on his fiscal policy, and Mr. Baldwin was recalled, in advance, to the result.

"The government will win tonight," he said, "but rain washed away the corn leaves and the employment wash away this government."

Had the Conservatives changed the wording of their motion the issue might have been in doubt. As it was the Liberals were also bound to vote with the administration when the safeguarding and McKenna duties and the government's supposed coldness to them were made the gauge of battle.

The Rt. Hon. Philip Snowden blamed the opposition directly in the matter of unemployment. "They gloom propaganda," he charged, had done much to aggravate conditions.

Mr. Baldwin dwelt upon the Empire aspect of the tariff. It was by tariffs only that economic unity could be attained, he said. "I am unable," declared Mr. Baldwin, "to see any other way. Certain of the Dominions are going to industrialize themselves as soon as possible. Canada will do it probably faster than the others, and she will soon be one of the greatest countries of the world."

The general opinion of economists, said Mr. Churchill, was not in favor of sweeping away these duties but favored sensible additions to their number and the regularizing and systematizing of their character.

All these duties, he said, in the first place, been valuable and brilliant experiments, but the Conservatives were emboldened to go forward in this direction by an ever-growing mass of opinion far outside of party bounds. They must, he said, these matters be treated as party questions or "as stunts to be managed by newspapers."

The Rt. Hon. Wedgwood Benn wound up the debate. The secretary of state for India, he said, Mr. Churchill with having abandoned his early free-trade faith.

Mr. Benn emphasized there were millions of unemployed in protectionist countries. He ridiculed the idea of binding the Empire together by taxes on foreign foodstuffs.

A number of Conservatives left the House before the end of the Benn speech amid the ironical cheers of the Labor members.

Rt. Hon. Philip Snowden, chancellor of the exchequer, who acted in behalf of Premier MacDonald, in reply to Mr. Baldwin's criticism, said:

"It is a fact that ever since this government came into office there has been an organized conspiracy. It has been the deliberate policy of certain interests to prevent employment in order to discredit the government."

### Coarse Grain Pools

Initial Payments On Remaining Deliveries Have Been Cut Down Winnipeg, Man.—Initial payments by the Alberta, Saskatchewan and Manitoba Wheat Pools on remaining deliveries of coarse grains to country elevators have been cut down, the Pools have announced. The reductions amount to 35 cents per bushel for rye and ten cents per bushel for barley and oats.

Reductions are as follows, the Pool stated, basis for Fort William: Rye, basis No. 2, C.W., reduced from 80c. to 45c. Barley, basis No. 3 C.W., reduced from 50c. to 40c. Oats, basis No. 2 C.W., reduced from 50c. to 40c. Instructions were wired to agents of the Pool last night, following decision at a board session recently.

At the close of the market recently, prices on Winnipeg exchanges were as follows: Oats, No. 2, C.W., 53½c. Rye, No. 2, C.W., 54c. Barley, No. 3, C.W., 46½c.

British Army Estimates Cut London, Eng.—British army estimates for 1930 total £40,500,000, a decrease of £605,000. The total men on establishment, exclusive of India, is 148,900 as compared with 150,500 in 1929.

W. N. U. 1829

## First Application Received

Request Made For Exhibit Space At World's Grain Show

Regina.—First application for commercial space at the World's Grain Exhibition and Conference, Regina, July 25 to August 6, 1932, was received at the headquarters here, March 12.

The application follows closely the start made in the distribution of a large number of booklets by the offices, in which the announcement is made: "The Executive Committee has set aside a limited amount of space for the staging of commercial exhibits of interest to those engaged in the production and marketing of field crops."

## Children Die In Fire

Found In Ruins Of Home By Manitoba Homelessers

Newdale, Man.—While their parents were away in the bush cutting the wheat, the two little children of Mrs. William Huty, homelessers, were burned to death when they destroyed their little dwelling.

The charred remains of the children—the youngest six months and the oldest two years old—were discovered among the smoldering ruins of the home when the parents returned from the woods.

## COL. BARKER, V.C. LOSES HIS LIFE IN AIRPLANE CRASH

Ottawa, Ont.—A national hero, whose fame in the air was known throughout the world during the Great War, is dead. Lieut.-Col. William George Barker, V.C., D.S.O., M.C., one of Canada's greatest wartime pilots, was killed when a new commercial biplane he had taken "up for a flip" crashed to earth.

Scarcely 10 minutes after he took off from the Rockcliffe aerodrome in the two-seater, a Fairchild "plane, brought here for inspection by government officials of the Department of National Defence, civil aviation branch, the body of the gallant birdman lay in the shore slush of the Ottawa River, almost every bone shattered. The "plane was a tangled wreckage.

An official board of inquiry, composed of three members of the civil aviation branch, has been set up to investigate the accident and attempt to determine its cause. Among the many persons who were witnessing from the ground the colonel's last flight, it appeared the engine stalled as he pulled the machine into a steep climb.

Colonel Barker was flying at an altitude of 200 feet when the engine gave a tremendous roar as the pilot pulled the throttle wide open and swooped upward.

After a climb to 150 feet, the "plane faltered, hung suspended momentarily and then like a wounded bird plunged headlong to earth.

Life was extinct when horror-stricken eye witnesses reached the wreckage. The man who came through scores and scores of hectic war combats with his life, although twice wounded, had apparently been killed instantly.

While Col. Barker was president of the Fairchild Aviation Corporation of Canada, manufacturers of the "plane in which he met death, he was not putting the glistening new machine through its test paces when the tragedy occurred.

D. Campbell Shaw, Fairchild test pilot, was here for the demonstration. He said that while Col. Barker had been flying recently, he did not wish him to go up. One of the colonel's arms was almost useless owing to his war injuries.

The machine was in perfect shape and the controls responded readily, said Shaw, who flew the "plane here from Montreal. Previously Capt. Shaw had flown the "plane from New York City to Montreal and a half hour before the Fairchild Corporation president took the two-seater aloft, Capt. Shaw had put it through the paces of varied aerobatics.

It was the first time Col. Barker had sat at the controls of a machine of the type and other Fairchild officials suggested he might have miscalculated the power of the engine to drive the machine in a climb.

The war record of the dead aviator, which included the shooting down of 62 enemy "planes and possibly others, was exceeded only by one Canadian flyer by Col. W. C. Bishop, another Victoria Cross winner.

He is survived by his widow, formerly Miss A. Smith, of Toronto, and their seven-year-old daughter, Antoinette.

## Briand Takes Gloomy View

Head Of French Naval Delegation Looks For Early Breakup Of Conference

London, England.—Aristide Briand, head of the French naval delegation, maintains that the five-power conference will not last more than another fortnight.

The French view is that a five-power treaty will result but cover only technical questions amounting to a preliminary convention on which could be based a later League of Nations gathering to consider disarmament on land, sea and air.

Briand was frankly gloomy. "I have finished my role," he said. "And tomorrow the whole thing will be handed over to the delegations."

Meanwhile, in spite of official optimism the decisive point of the conference has now been reached and it centres almost entirely round France's insistence that her figures cannot be seriously reduced. In this connection, Mr. MacDonald has great faith in M. Briand's power to effect a compromise which will allow reductions; but M. Briand, it is recognized, will dare to do any thing likely to be rejected by the French chambers.

While Mr. MacDonald does not want to see the isolation of France, even if she does persist in her present attitude, this will be the inevitable outcome unless greater progress is made towards finding a solution of the difficulties still to be overcome. Officials state that they are pleased with the progress so far made, but Labor members are telling the Prime Minister they are not.

## Another Trip Planned For Graf Zeppelin

Commander Of Driftlight Outlines Coming Trip To America

Berlin.—The Graf Zeppelin, veteran of a flight around the world, will pay a 48-hour visit to the United States May 12, Dr. Hugo Eckener, commander of the dirigible states in an interview.

Eckener outlined for the first time the complete itinerary of his forthcoming trip to the Americas, which will start probably between May 12 and 15.

Leaving Friedrichshafen, the Graf will make a 20-hour flight to Seville, Spain, and thence proceed directly across the south Atlantic to Rio de Janeiro, Brazil, in about 75 hours.

From Rio the dirigible will fly northward 20 hours to Pernambuco, Brazil, where a special mooring mast will have been built and preparations made for refuelling.

After remaining at Pernambuco 24 hours, the Graf will make a three-day cruise via Jamaica, Haiti and Havana, Cuba, to Lakehurst, N.J., where it will stay two days.

From Lakehurst, a 50-hour flight will take the Zeppelin back to Seville, after which it will return to Friedrichshafen.

## Detroit May Dismiss All Alien Teachers

Mrs. Lindbergh Would Be One If Bill Is Passed

Detroit, Mich.—Following the lead of the city council, which recently ordered about 1,700 aliens employed in various city departments discharged, the board of education is considering dismissing 78 teachers who are aliens or non-residents of Detroit.

Mrs. Evangeline Lodge Lindbergh, mother of Colonel Charles A. Lindbergh, is one of those who would be discharged if the resolution before the board of education is passed.

## Youngest Ocean Traveller

Beryl Brown, 18 months of age, youngest traveller ever to have made a trans-Atlantic trip alone, travelled half way round the world by the time she reached her mother in Red Pass, B.C. She came over on S.S. Minnedota to St. John and thence by Canadian Pacific to her home. She is showing her doll to officials and newspapermen who came to see her in her sleeping car aboard the train.

## WHEAT POOL HEAD

A. J. McPhail, president of the Canadian wheat pool, recently returned from a wheat conference in England.

## Start Campaign For Indian Independence

Ghandi and His Followers Begin March To Jalapur

Ahmadabad, India.—Inaugurating their campaign for complete Indian independence from Great Britain, Mahatma Ghandi, 61-year-old Nationalist, and 79 of his disciples have started their march to Jalapur, where the British Crown will be enacted.

Twenty thousand persons gathered to watch what was the first step of the long-heralded "civil disobedience" espoused by the all-Indian National Congress at Lahore, in January.

Ghandi himself, despite his increasing age, walked with firm step. His appearance belied recurring reports that he had been arrested by order of Lord Irwin, Viceroy of India. It was regarded as by no means sure, however, that he would not be taken into custody, in which case the 16 students of the National University, acting as an advance guard were expected to take up his program and continue the march ahead as propagandists.

## Funds For Investment

Americans Are Anxious To Invest In Canadian Oil and Mining Ventures

Toronto.—"If this stock brokerage muddle was cleaned up at once, Canada would develop more prosperity in mines and oil projects this summer than was witnessed during the height of the activity last summer."

This is the view expressed by John M. Edwards, the Boston financial expert in the Toronto newspapers on the occasion of his visit here to investigate certain prospects his big organization had under way in Canada for this spring.

"A great deal of Boston and New York funds had been earmarked for investment in oil and mining ventures to be started in different parts of Canada this year," Mr. Edwards, quoted as saying, "and with greater security for the public in the new stock exchange rules and amendments to the laws governing marginal trading, business should be on a very sound basis for these Canadian projects this year."

## Prize Winners At Winter Fair

Saskatoon, Sask.—Manitoba and Alberta exhibitors captured all first prizes in judging, March 11, at the annual Saskatchewan Winter Fair. Of the eight classes passed on by the judges, Manitoba stockmen carried off eight of the first awards and Alberta took the remaining four.

## School Act Amendment

Display Of Religious Emblems Prohibited In Saskatchewan Schools

Regina.—Without amendment of any kind, the bill proposing to prohibit the display of any religious emblem or the wearing of a garb of any religious denomination by teachers in the public schools of the province, passed through the Saskatchewan Legislature, and now only awaits royal assent to become law. The measure, however, will not come into effect until July 1 next.

Practically no discussion took place when the bill was in committee of the whole. While there were a few interjections across the floor of the House, very little debate took place while the bill was under consideration.

## Seeking Tariff Changes

Liberal-Progressives Of Manitoba To Interview Minister Of Finance

Ottawa, Ont.—In view of the fact that the federal budget is expected to be brought down before the close of the month, the Liberal-Progressives of Manitoba have appointed a delegation to interview Hon. Charles A. Dunning, Minister of Finance, and recommend tariff reductions.

The Liberal Progressives have made a close study of the tariff as it affects the agricultural industry of the province and will make specific recommendations for tariff reductions. It is believed that they will ask that the duties be cut on motor trucks, kitchen utensils, paints and varnishes and several other commodities.

## DISCUSS THE COST OF LIVESTOCK PRODUCTION

Ottawa.—Investigation of the cost of producing livestock in Canada and the causes of price fluctuations were recommended by the conference of deputy ministers of agricultural departments, officers of co-operative agencies and producers here.

A proposal for a Royal commission to inquire into problems affecting the industry was dropped after prolonged discussion.

The conference re-affirmed the confidence of its members in the principles of co-operative marketing.

Organization of a committee to consider the problem of handling feeds at cost to ease the livestock farmer's burden was recommended.

Considerable time was taken up with hearing the problems of the poultrymen and considering ways and means to ameliorate their conditions. The stock raisers' difficulties were aired, and a general discussion took place, participated in by most of those present. The greatest handicap to the livestock industry at the present time was the lack of confidence in marketing methods. It was pointed out, and improvement of these must take place before any betterment could ensue.

The apparent disregard of the middleman for the interests of the primary producers was the cause of considerable dissatisfaction among the farmers, declared W. A. MacKay, of the Canadian Livestock Co-operative.

It was clear, however, that in some respects the producer had been careless of inefficiency, but this, he thought, could be overcome by a campaign of education in which all interests could effectively co-operate. He suggested standardization of products, strict grading and an aggressive marketing policy. At the same time it was urged that the same standards applying to Canadian products be made to apply equally to imported products.

Recognition and support of co-operative marketing was urged. But the matter of who should take the lead in developing co-operative organizations found a division of opinion among those present. F. D. Auld, deputy minister of agriculture for Saskatchewan, urged an appropriation by the Federal government for expenditure by the provincial governments. The latter were more in touch with the producer and in most provinces worked effectively with him. The Alberta attitude was to aid operation, he said, but to keep hands off organization, and this was true also of Manitoba, Mr. Auld said.

The request of the livestock co-operative for demonstration packing plants developed considerable discussion, but failed to get support beyond the reminder that there is at present no impediment to private organizations attempting such work. The conference recommended an enquiry as to the practicability of such a scheme.

## POOL HEAD TALKS ON WHEAT AND COAL SHIPMENTS

Regina.—Attitude taken by "coal people" in Canada forced abandonment of a British Government proposal which might have aided wheat shipments from Canada to Britain. This light on the conversation between the Canadian Wheat Pool officials and Rt. Hon. J. H. Thomas, Lord Privy Seal and unofficial Minister of Employment in the British Government, was contained in an address by A. J. McPhail, president of the Canadian Wheat Pool.

"We were prepared to recommend, for the serious consideration of our board, a certain proposal made by Mr. Thomas, that I think would possibly have resulted in the subsidization of wheat shipments," stated Mr. McPhail, in speaking to a meeting of the Regina Board of Trade. "However, due to the very strong attitude taken by coal people on this side of the water, the whole idea I think has been dropped for the time being at least."

Mr. McPhail offered no further details of the "certain proposal," presumably considering, as he has intimated heretofore, that reports of the conversations must come from British Government officials.

It is recalled, however, that it was reported, while the Pool men were in Britain, that suggestions had been made for shipments of British coal to Canada in tramp steamers, to be filled on their return trips with cargoes of Canadian wheat.

The old organized grain trade is "doomed" in Canada and elsewhere, in the opinion of Mr. McPhail. To the people who would like to see the Pool collapse, stated Mr. McPhail, there can be no consolation in the present situation of down-pressed grain prices. "If such a thing did happen within the next five years," he said, "the consequences would be particularly disastrous to the old organized grain trade, because I have no doubt it would mean finally their complete elimination."

"I do not believe that even if the worst happened the farmers of this country will be the first to return to the old system of marketing," commented the head of the organization which sells more than half of Canada's crop. He expressed gratification at the final stand of the Pool's 144,000 farmers in the face of the "present trying conditions on the grain market."

"There has been no gigantic battle, no titanic struggle taking place," said the pool head, referring to reports of economic combat between Europe and North America in a background of wheat. The real cause of the present situation, he said, was the very large 1928 crop in export countries; the large crop in Europe the same year; and the attitude of Argentine wheat handlers in dumping wheat on the market at any price.

"There is general recognition that agriculture everywhere is in a serious plight," mentioned Mr. McPhail. "Even in England, where agriculture probably plays a smaller part in the national life than in any other country, there is a general feeling which I failed to find two and one-half years ago to the extent that it exists now, that if the country is to be restored to a proper position of reasonable prosperity, agriculture must be lifted out of the deplorable condition in which it is now in the market at any price."

"I have ground for believing that we can come out of this situation reasonably well," he said, "but I believe that we must, as farmers, give very serious consideration to the future. Canadian farmers will do well to consider seriously their methods of production, and particularly their costs of production as well as the quality of their products. Quality is of supreme importance."

## Installing Teletype At Flying Field

Instructions For Work At Moose Jaw Received From Ottawa

Moose Jaw, Sask.—Arrangements have been made for the installation of teletype equipment at the Moose Jaw flying field and work has commenced. D. C. Coons, superintendent of Canadian Pacific Railway Telegraphs, and D. McLean, Western Canadian Airways, visited the flying field last week.

Instructions to install the teletype were received from Ottawa and the machine will be on the Saskatoon-Edmonton circuit and booked from Winnipeg to Calgary.

The teletype is a self-recording telegraph machine, and weather reports and other matters of interest to pilots will be available at the hangar.

## NOTES AND COMMENTS

To those who are pessimistic on the future of coal as a fuel for power purposes, the following is of interest:

"We are really on the threshold of a new era," said Frank Hodges, ex M. P. and secretary of the International Miners' Federation, in a lecture at Newcastle-on-Tyne recently. "We are not beyond the experimental stage in obtaining oil supplies from coal. Next year will reveal real progress in this direction. We no longer experiment in raising steam from our low grade fuels in pulverized fuel furnaces. We build them, we work them profitably and economically on a grander scale than any of the orthodox systems of consuming fuel. The day is at hand when oil in the mercantile marine will be challenged 'not by raw bunker coal, but by pulverized residual fuel obtained after recovery of the more precious oil elements and gas qualities therefrom. Scientific engineering opinion is already satisfied that pulverized residual coke will be more economical than its rival oil."

Recently an editorial from the Hanna Herald was widely quoted in daily and weekly newspapers, in which criticism was made of an Alberta honey producer whose product was listed by the Alberta Development Board and recommended for purchase by Alberta people, but whose labels for some of the jars of the product were printed in the United States.

The proprietor of the firm in question has replied through the press giving his reason why he used labels printed in the States. He did it to save money. But a paragraph later on in his letter serves to show that in trying to save money by purchasing labels from the States he caused far more loss than the money saved. He says: "Your editorial and the publicity it has received from being copied so often has certainly been a great injury to our business, for while the fact brought out, as far as it went, was correct, omission of the true state of affairs often creates error."

This incident emphasizes the point that the public take keener note of these inconsistencies than they are given credit for. It is of no use to preach to the people to buy at home and send away yourself. The incident serves as an object lesson to those who in saving a dollar or two on a printing order create an unfavorable impression in the minds of the general public whom they expect to purchase their goods.

King Gillette recently expended hundreds of thousands of dollars to tell the public a new style safety razor selling for one dollar had been placed on the market. That enthusiasm and aggressive salesmanship, which commands the admiration of the public, and increases sales on a grand scale.

Wheat has dropped, and so has flour. The forecasters predict that other commodities will be cheaper during the year. This will be welcome news to everybody. The law of supply and demand is bound to operate in spite of artificial means to maintain price levels.

## A Spring Song

The "winter of our discontent" (as old Bill Shakespeare once said), is over and we now welcome another spring—changeable and provoking though it so often proves. It can well be dubbed the season of contrasts. It is the time of bubbling youth, joy and mating happiness. It is also associated with coughs and chills, sulphur and molasses, fertilizers, seed catalogues and "sucker" running in the creeks. The air is filled with the sweet and deliciously smelly of leaves and green grass, of blossoms and all sorts of growing things; also with the demands of four wives and laughter with their new raucous. The sient-hatched bird grinder with his hurdy-gurdy is seen on the streets, and the rumble of the ice-wagon has supplanted the creak of the coal cart. The railway navy has buried the dead grass along the railway tracks in the country, and the town dweller has spaded up his back yard garden. It is the time of fond hopes, of beautiful dreams and love. It also rains like hell at times. The wild strawberry will soon be ripening on the warm hillsides and the white hawthorn spreading its sweet fragrance in "the fields beyond." Down in the swamps Mr. and Mrs. Mosquito, just newly married, have commenced an intensive production campaign and millions of their dirty pesky little brats will soon be tormenting the lives and legs of those who "dwell near nature's heart." It is a season of strong extremes—of hot days and chilly nights—of bright sunshine and spring showers—of early snowdrops and occasional snowfalls—of the lilting liquid melodies of the song birds and the ribald raucous cries of the crows and grackles. It is about the meanest, dirtiest and most uncertain time of the year but, damn its pesky, under-like it because of its promise for more glorious days to come.—Canadaiuk.

## Well Known in Early Days

The death of S. M. Moore, aged 79 years, who for several years up till 1911 was manager of the colonies of the C. P. R. at Bankhead, and for the Franco-Canadian Colonies at Frank, was recorded in a recent issue of the Northern Idaho News, at Sandpoint, Idaho, where the deceased was living with his son. He was well known by earlier residents of the Pass towns, and Mr. Whiteside, general manager of International Co., states that when he last saw him at Sandpoint, when driving through last year, he was quite well. It is of interest to note that he was a Mason for 58 years, and was active in politics and held various offices in Missouri, Montana and Sandpoint. His son, Don C. D. Moore, is publisher of the local newspaper at Sandpoint.

## Reciprocity—We Should Say Not!

As an example of one sided treatment, we recollect a man asking that his business be boosted by local people and through the newspaper. But when it came to placing an order for work he required which could have been done in Coleman at no greater cost, it was placed elsewhere. "O consistency, thou art a jewel." Its a poor rule which does not work both ways.

Dances were held on St. Patrick's night in the K. P. hall, the Italian hall, at Lundbreck and at Pincher Creek.

## Here and There

(494)  
Prior to leaving on his steamer with his niece, Miss Helen MacKenzie, who is to be married in London next month, His Honor R. J. Randolph, Bruce, Lieutenant-Governor of British Columbia, attended the official opening of the New Brunswick provincial legislature. In his trip by Canadian Pacific across the Dominion, Mr. Bruce called on every Lieutenant-Governor in Canada.

Captain A. J. Hoskin, R.N. skipper of Canadian Pacific liner Empress of Russia, was recently winner for the second time in succession of the E. W. Beatty shield for safety and efficiency. The shield was donated in 1928 by the chairman and president of the railway for competition among company ships of the Pacific fleet.

First week in March witnessed the addition of Alberta and Saskatchewan to the Canadian Pacific Railway's broadcasting chain which now covers Montreal, Toronto, Winnipeg, Fleming, Saskatchewan and Calgary for Alberta. Slogan of the broadcast is "Cheerful and Good," and sea chanteys and songs from ballad operas together with high class orchestral pieces are put on the air every Friday night between 10 and 11 Eastern time.

In Ottawa electricity for domestic use is cheaper than anywhere else on the continent, if not in the world, according to authorities on the subject. It is sold at a rate that averages less than one cent per kilowatt-hour which means that the average bill for electric light incurred by citizens of the Canadian Capital is about \$1 per month.

At the World's Poultry Congress to be held at the Crystal Palace, London, England, next July, Canada will be a conspicuous participant. The Canadian exhibit of live birds will total about 1,000. The last World's Congress was held in Ottawa in 1927.

One of the largest real estate transactions of modern times will be put through at the present session of the Canadian Federal Parliament, when legislation will be submitted to enable the Government to hand over millions of acres of land, a substantial amount of water power, vast forest wealth and other natural resources to the provinces of Manitoba, Alberta and British Columbia.

The music, songs and dances of Latin, Celt, Scandinavian, Slav, Teuton and British will be represented for Canadians this month when on March 19-22, the third Great West Canadian Folk Dance, Folk Song and Handicrafts Festival will be held under the auspices of the Canadian Pacific Railway at the Palliser Hotel in Calgary.

Unusually heavy pre-Lenten weddings were indicated this month from the Windsor street station, Montreal, when 25 blushing honey-mooners left that city for Ottawa, Quebec and New York on one morning. Station officials say that this is very heavy for the time of year and comes close to the number leaving the station on morning of Cupid's special month of June.

## Personal and Local

Mrs. H. V. Hummel and Master Bryan will leave on Sunday for Toronto, and will spend two months in Eastern Canada.

See Alice White in "Playing Around" at the Palace theatre this week-end. A mirthful, side-splitting comedy.

Bridge parties in honor of Mrs. Haining, who is visiting in town, were held during the week at Mrs. T. B. Smith's home, and at Mrs. J. O. C. McDonald's home.

The annual meeting of International Coal & Coke Co. Ltd. will be held in Vancouver on March 27, and O. E. S. Whiteside, general manager, and H. V. Hummel, secretary of the company, will leave early in the week.

A surprise party was held for Gilbert Hoyle on Friday last (it being his birthday) at his home. A very dainty lunch was served by Mrs. Hoyle, following which games were played and an enjoyable time was had by everyone.

Long Kam, genial proprietor of the Coleman Cafe, left on Tuesday to visit his old home in Canton, and will leave Vancouver on March 29 by one of the Empress ships of the C.P.R. It is 18 years since he visited there, and his parents are still living. He first came to Canada 27 years ago.

The United Mine Workers of America have a split in their national organization. The annual convention of the parent organization was held at Indianapolis, with John L. Lewis presiding, while another convention of insurgents was held in Springfield, and elected a president of their own. M. Stegler of Coleman attended the Indianapolis convention.

The Eastern Star ladies put on a surprise party in honor of Mrs. McCartney last Thursday, and after their meeting a nice lunch was served and card games played. The honors were won by Mrs. Rippon and Mrs. McCartney. As a token of esteem prior to her departure for Everett, Wash., Mrs. McCartney was presented with a beautiful picture of Crows Nest mountain.

Last night at Port Arthur, Trail hockey team won in the Allan Cup playdowns for the western championship by a score of 3-1. The second game will be played tomorrow. This is the fifth game in the playdowns that Trail has scored 3-1; twice against Blairmore, twice against Saskatoon Quakers, and once against Port Arthur. Western fans hope they will repeat the score tomorrow.

A rather ferocious man, whose fighting prowess had become acclimated to such a degree that he boldly proclaimed that he could lick anybody from 200 pounds up had his crown knocked off on St. Patrick's night so badly that it required several minutes of artificial respiration to bring him back from dreamland. The K. O. was administered by someone with a hefty fist. The incident occurred shortly before midnight.

The Carbondale Country Golf Club served tea to about thirty visitors from Blairmore, Hillcrest and Bellevue on Saturday last, and a very pleasant time was spent on the links here. The members of the club and their guests spent the afternoon golfing and having a good time generally. The club, while it does not make much of a bid for publicity, is in quite a flourishing condition, and quite a number of the townspeople regularly avail themselves of the opportunity afforded to participate in this splendid game.—Coleman Bulletin, September, 1916.

## Announcement

A newspaper's income is derived from the sale of advertising space. Some are apt to overlook this in requesting free publicity for events to which an admission fee is charged. Announcements of this nature, meetings, etc., are chargeable at 10c per line. Display advertising space to occasional advertisers is sold at 50c per inch, single column measurement.

Considerable free publicity is given to various community activities, which The Journal is always willing to boost in its news columns. White space is a newspaper's stock in-trade.

## CLASSIFIED ADVERTISEMENTS

NOTICE—Have you something to sell? Advertise it in this column. 2c a word, minimum charge 35c.

WANTED—1-year-old pullets, white Leghorns or Plymouth Rocks. Reply to Journal Office.

FOR SALE—One 4-roomed house and a 5-roomed house. Apply to W. J. White. Terms to reliable party.
